Question:	What do you consider the instructor's areas for improvement in relation to this course?
Response Rate:	60.00% (3 of 5)
1	Explanations went over our head at times
2	Spend a little more time doing actual examples involving material found on our homework or other activities
3	Give a more structured lecture and after that ask the students questions to test their understanding. Asking during the lecture every other sentence causes very wide tangents to be taken and veers off course of the subject taught that day.
